Full Stack Developer | [anandmars98@gmail.com](mailto:anandmars98@gmail.com) | +91 8220872636 | [LinkedIn Profile](#)

## PROFESSIONAL SUMMARY

Accomplished Full Stack Developer with 3.5+ years of experience in building and maintaining scalable web applications. Proficient in React.js, Node.js, Express.js, and MongoDB, with strong experience in developing RESTful APIs and responsive user interfaces. Skilled in both front-end and back-end development, delivering high-quality and performance-optimized solutions. Known for strong teamwork, problem-solving, and ownership. Seeking opportunities to contribute to a dynamic organization and grow as a full-stack developer.

## EXPERIENCE

### Big7 Solutions & Media Pvt Ltd, Puducherry

Sep 2025 – Apr 2026

Full Stack Developer

- Developed a Project Management Tool using **Next.js, Supabase, and Vercel**, improving employee report and attendance tracking efficiency by **40%**.
- Implemented **authentication, real-time data handling, and role-based access control** for 100+ users, ensuring secure and seamless system access.
- Built responsive dashboards and optimized application performance, reducing page load time by **30%** and improving overall user experience.

### Meyi Cloud Solution, Puducherry

Jan 2025 – Jul 2025

Associate Software Engineer

- Developed the **Plant365 management application** using **React.js and AWS**, streamlining customer, order, and invoicing workflows and reducing manual processing effort by **35%**.
- Built interactive dashboards and integrated REST APIs to manage real-time business data, improving reporting efficiency and data accessibility for internal teams.
- Optimized frontend performance and ensured scalable deployment using AWS services, achieving **25% faster application response time** and improved system reliability.

### Redblox Technologies, Puducherry

Dec 2022 – Jan 2025

Junior Software Developer

- Developed the **Spryntz mobile application** using **React Native and Redux**, enabling seamless food ordering and real-time tracking, improving order completion efficiency by **25%**.
- Built the **Producer Bazaar web platform** using **React.js, Node.js, and MongoDB**, supporting product listing and marketplace functionality for multiple vendors and users.
- Designed reusable UI components, integrated REST APIs, and collaborated in Agile development workflows using **Git and Jira**, improving development efficiency and code maintainability.

### TechEva IT Solution, Puducherry

Aug 2022 – Nov 2022

Associate Web Developer (Intern)

- Developed responsive UI for the **1300 Car Money** project using **HTML, CSS, and Bootstrap**, improving mobile responsiveness and enhancing user experience across multiple devices.
- Assisted in integrating APIs and implementing frontend features with **JavaScript**, contributing to smoother data handling and improved application functionality.
- Supported debugging, testing, and cross-browser compatibility improvements, reducing UI issues and ensuring consistent performance across modern browsers.

## TECHNICAL SKILLS

- **Front-End:** React JS, Next JS, React Native, HTML, CSS, JavaScript, TypeScript, Redux, Zustand, Bootstrap, Tailwind, Material UI
- **Back-End:** Node JS, Express JS
- **Databases:** MongoDB, Supabase
- **Tools & Collaboration:** VS Code, Git, GitHub, Gitlab, Jira, Postman, Figma, Click up
- **Cloud Technologies:** AWS (S3, Lambda, API Gateway, CloudWatch, CloudFront, CodePipeline)
- **Performance & Optimization:** Code Refactoring, Optimization

## KEY PROJECTS

### Spryntz

- Developed a cross-platform food delivery mobile application using **React Native and Redux Toolkit**, enabling seamless ordering and real-time order tracking.
- Integrated REST APIs, payment gateway, and live tracking features, improving order completion rate by **25%** and enhancing user experience.
- **Technologies:** React Native, Redux Toolkit, REST APIs, GitLab

### Project Management Tool

- Developed a scalable full-stack application using **Next.js, TypeScript, and Supabase** to manage employee attendance, work reports, and performance tracking.
- Built responsive admin dashboards and optimized application performance, reducing load time by **30%** and enhancing overall user experience.
- **Technologies:** Next.js, Typescript, Supabase, GitHub

### Plant365

- Developed scalable dashboards and business features using **React.js, Redux, and AWS** for customer management, order tracking, and invoicing workflows.
- Optimized frontend performance and collaborated in Agile workflows using **GitHub and ClickUp**, ensuring reliable deployment and maintainable code structure.
- **Technologies:** React.js, Redux, AWS, GitHub, ClickUp

### Producer Bazaar

- Developed responsive UI, integrated APIs, and managed global state using Zustand for efficient data handling.
- Built responsive UI components and optimized frontend rendering for seamless user experience across desktop and mobile devices.
- **Technologies:** Next JS, Node JS, Express JS, MongoDB

## EDUCATION

- **Bachelor of Technology** in Mechanical Engineering, Christ College of Engineering and Technology, Pondicherry University (2016 – 2020)

## CERTIFICATIONS

- MERN Stack Development - Guvi 2024
- AWS Certified Cloud Practitioner - 2025

## PROFESSIONAL ATTRIBUTES

- Leadership and Collaboration
- Creativity and Smart Worker
- Adjustability and Calmness
